OPENING LETTER

Dear “Magician” of your world,

Every month, we gather here at the edge of the ordinary and look again. Because the ordinary, when seen closely enough, is never what it seems. Every day many people rush past the extraordinary because it is hidden in the ordinary.

Magic is not frog legs or spells scribbled in dusty books; it is your sharpened tools, will focused, and energy directed with intent to do the alchemy of whatever you choose.

You already live inside a web of magic. The rhythm of your breath, the fire of your thoughts, the current of your heartbeat; each is a force that transforms the invisible into the visible, moment after moment..

In this edition, we explore “Magic” by having fun as always. And in the end we have this month’s surprise for you, so if you are interested make sure you read ‘till the end :)

With reverence to your magical heart,

“ And above all, watch with glittering eyes the whole world around you because the greatest secrets are always hidden in the most unlikely places. Those who don’t believe in magic will never find it.

- Ronald Dahl

”

ARCHETYPE OF THE MONTH

THE MAGICIAN

The Magician turns possibility into form, the alchemist who stands between worlds and says: *let there be*. S/he doesn't wave spells to force life into submission, s/he is the one who remembers that everything is already alive and waiting for direction.

In Kabbalistic teachings, the Magician corresponds to Beth (ב), the second letter, meaning *house*. Beth is the place where the infinite can dwell, where the breath of Aleph takes on shape. The Fool is the leap into the unknown, the Magician is the first landing.

The Magician stands with one hand pointing to the heavens and one to the earth which is a reminder of the Hermetic axiom: as above, so below.

S/he brings heaven closer to earth. Before The Magician lie the four tools of creation: wand, cup, sword, pentacle. They represent inner powers.

But the Magician's power can charm or deceive. When untethered from heart, magic becomes manipulation, cleverness without wisdom.

To embody the Magician is to build a house inside yourself for the sacred to live in. But we have much more to discuss about The Magician.

MORE ABOUT THE MAGICIAN

If you want to dive deep to The Magician, explore how you play it out in various aspects of your life, its symbology, power and how you can bring this powerful energy to your life you can check out our mini seminar on The Magician by just clicking the button on the right.

“The Magician's true trick is simple: turning a spark into a world.”

SONG OF THE MONTH

THE POWER OF THE DREAM

Magic has many forms. It's amazing that people seek external resources to be able to do magic.

It's not about gathering external resources then making something out of it.

Magic is not a trick. It is the act of consciously stepping fully into your role as creator. It is realizing that your life is not happening to you, it is being shaped by you every moment.

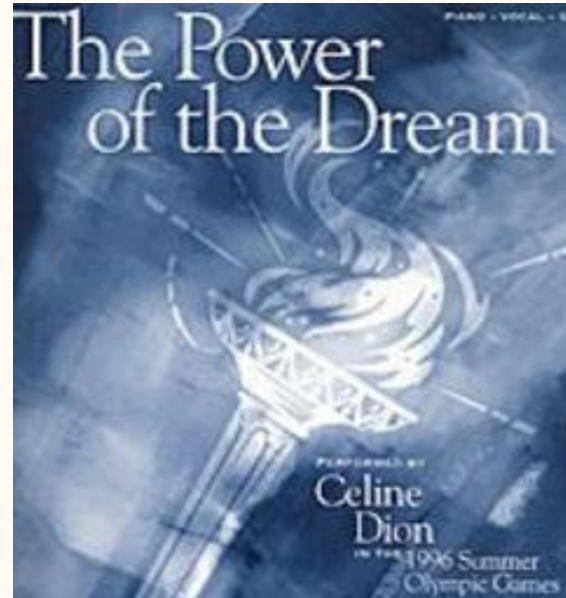

Doing magic is about using your own materials, and tools that you already have to do alchemy on your dreams.

So let this song charge you with the knowing that magic is already in you, waiting for your permission to move.

Here's some of the great lyrics from The Power of The Dream – Celine Dion:

*Deep within each heart,
There lies a magic spark
That lights the fire of our imagination*

*Your mind will take you far,
The rest is just your heart
You'll find your fate is all your own creation*

“Painting is an illusion, a piece of magic, so what you see is not what you see.
- Philip Guston

STORY OF THE MONTH

ZHUANGZI'S BUTTERFLY DREAM

(CHINESE TAOIST PHILOSOPHER ZHUANGZI'S STORY)

Here's a short but a profound story:

One night Zhuangzi dreamt he was a butterfly, a butterfly flitting and fluttering around, happy with himself and doing as he pleased. He didn't know he was Zhuangzi.

Suddenly he woke up, and there he was, solid and unmistakable Zhuangzi.

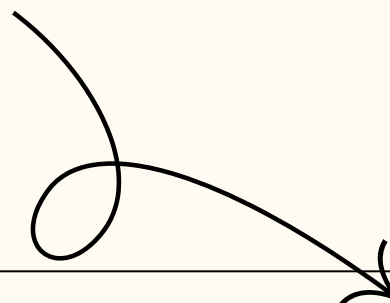

But he didn't know if he was Zhuangzi who had dreamt he was a butterfly, or a butterfly dreaming he was Zhuangzi.

PONDER ON THIS

- What does butterfly symbolize?
- What is the difference between the butterfly and Zhuangzi, if any?
- Who is the dreamer?
- Who is the dream?
- How is this story related to The Magician?

If these questions or the story made you feel excited we invite you to "The Dream Within The Dream" course.

We'd like to hear your perceptions! You can send them us via e-mail:

“ Dreaming is the act of crossing into other realms, of daring to perceive worlds ordinarily hidden.
- Florinda Donner (Being in Dreaming)

”

THE MOVIE OF THE MONTH

THE LAST MIMZY

On the surface, it's a sci-fi adventure about two children who find a mysterious box of toys from the future. But it is about the magic that lives in human potential, the telepathy, empathy, and connection we once had and can re-awaken.

The gifts we think are "supernatural" might just be our most natural state.

We already have magic, in fact we are magic. It's about remembering who we are.

Here's a couple of dialogues from the movie:

Noah: "Maybe we should tell someone."

Emma: "I showed the green glass thing to Mom. She thought it was a paperweight. Maybe other people don't see what we see."

"Emma: "She's Mimzy. She's my teacher. She teaches me everything. She taught me about the painting in the book. She told me it was called the Seven Mountains."

Naomi: "That's a very cute bunny."

Jo Wilder: "My daughter has a very active imagination."

“

Magic is a mirror. It is not what you see. It is what you are.

- Terry Pratchett

”

BOOK OF THE MONTH

THE EARTHSEA TRILOGY

In this serie, we see our boy Ged's path is filled with both brilliance and mistake, light and shadow.

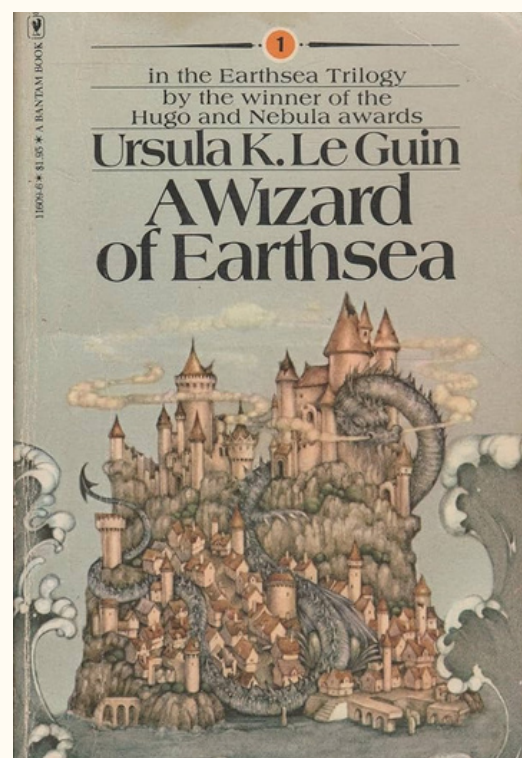

He begins as an arrogant apprentice, hungry for recognition, but his true initiation comes not from triumph, but from unleashing something he cannot control.

And the Magician's real work begins which is not conquering others, but knowing the deepest self.

So for Magic Edition it's a great trilogy: The Earthsea Trilogy by Ursula K. Le Guin

Here's a short part from A Wizard of Earthsea:

But you must not change one thing, one pebble, one grain of sand, until you know what good and evil will follow on that act. The world is in equilibrium. A wizard's power of Changing and of Summoning can shake the balance of the world. It is dangerous, that power. It is most perilous. It must follow knowledge, and serve need. To light a candle is to cast a shadow.

“ The moment you doubt whether you can fly, you cease for ever to be able to do it.

- J.M. Barrie, Peter Pan

”

HEALING

HEALING MAGIC

People treat magic as if it's something hidden in secret books.

Have you looked close enough?

Instead of looking for miracles outside have you looked at your body? Have you appreciated it enough?

You have an amazing superpower; healing! And your body does it automatically for you, you don't even need to worry about it! Your body doesn't create diseases, you do! Your body heals itself as long as you don't interfere :)

It is not just an amazing mechanical miraculous machine. It is much more than that. You have different bodies and each has different layers.

What a magical, mysterious being you are! How many times have you inhaled while reading this page? You don't know? Because you don't need to! Breathing is what you do effortlessly, you don't even think about it. But do you appreciate it? Are you aware of the amount of healing you can do with your breathing? Do you know about different types of breathing?

If you want to know more about healing, different breathing techniques and much more, you can check the "Healing Magic" course.

Words are, in my not-so-humble opinion, our most inexhaustible source of magic. Capable of both inflicting injury, and remedying it.

- J.K. Rowling
